

# RefEd Initiative News Letter

## Education for every child on the move

### Our June Updates from the field

Hello everyone,

We have some exciting news to share with you for the month of June. During the month of June, RefEd Initiative managed to scale up operations in Rwamwanja Refugee settlement by adding two extra villages bringing our coverage to six villages.

This means we are able to reach out to more children than before. And yes, more volunteers empowered to lead our exciting education program that transforms the society.

#### Literacy under the shade

Our literacy camps continue in the communities with an addition of two extra camps to cover 150 students. We are currently covering six villages with our literacy camps in the communities

#### Out of school students

We continue to move around the communities to mobilize out of school children and enroll them back to school. We are reaching out to teenage mothers, children on the streets, pregnant teens, children with disabilities and all other children who are out of school to make sure they get back to school

#### More Volunteers deployed

We added two volunteers to our growing team of passionate change makers. We are currently serving in six villages with six volunteers who are taking the lead in transforming their communities through education.

Support our mission of enabling refugee children around the world to access quality education. Contact us for the different ways we can partner to deliver.
